

The Plague Growing.

The yellow fever plague is growing in the South and now exists in Louisiana, Mississippi, Alabama, Florida, and the Republic of Mexico. Texas is sandwiched between the infected districts with little hopes of escaping invasion. The following report is from the New Orleans Board of Health, dated Aug. 9, at 6 p. m.:

New cases, 63.
Total to date, 679.
Deaths, 7.
Total to date, 119.
New sub-foci, 12.
Total to date, 130.
Cases under treatment.

Revenge.

The papers announce that an eastern spinster has left her former lover a fortune estimated at \$150,000, on condition that he obtained a divorce from his wife. The spinster was disappointed because he finally preferred another woman to her and takes her revenge by trying to separate them. At first it might seem that the revenge was aimed at her successful rival, but the man is really the one at whom the trust is made, for if he were so did enough to divorce his wife to secure a fortune he would soon become an object of pity, for the contempt of his neighbors would make life unbearable. But what shall we say of the revengeful spirit which affixed the condition of the bequest. Possibly she thought she loved the man, but true love shows itself in a different way.

If she had loved him as many have loved she would either have kept silent, or, if she wanted to leave him money, she would have left it for him to use to promote his own happiness and welfare. Her love was of the kind that leads young men to kill their sweethearts (when they have been rejected) and then kill themselves.

It is a selfish love—if love can be selfish—that prompts one to punish the object of his affection. Sacrifice is the language of love. "Greater love hath no man than this that he lay down his life for his friend"—but the so-called love which extracts a penalty has in it the element of revenge rather than genuine affection.

And revenge is the hardest load that anyone can carry. No one is strong enough to attempt such a burden, and no one can afford to risk its corroding influence on his life. This conditional bequest shows how cherishing revenge will warp a nature.

Horses With Distemper.

P. J. Millett, of Maplelawn Stock Farm, has turned out to grass three of his most promising thoroughbreds. They arrived Tuesday night from Latonia, being afflicted with distemper. They are Hellenia C., by John Bright; Miss Doyle, by The Commoner, and Saracene, by imp. Maskin. The bunch had already won fifteen races, and were entered in many to be run in the East. Mr. Millett will not race them again until next season.

Successor to A. M. Harrison.

Clem J. Whittemore, of Mayfield, assistant to Attorney General Hays, will be appointed revenue agent for the State-at-large to succeed A. M. Harrison, of Lexington.

Auditor Hager has not yet announced the appointment, but will do so shortly. Mr. Whittemore will continue the prosecution of all suits instituted by Harrison.

Coins two More Words.

Prof. Edward A. Ross, University of Nebraska, who coined the expression "race suicide," invented two new words last Friday in the course of a lecture before the summer students at the University of Chicago. Both of the new words are adjectives. He called our American life a "flap-doodle" and a "patent leather" existence, says the Chicago Examiner.

The professor was talking about race suicide, which, he averred, is sapping the vitality of the Nation. Here are some of the things he said:

Race suicide is the result of our too democratic institutions.

Large cities are an important cause of race suicide. City life makes celibacy comfortable.

Higher education of women is another cause of race suicide. The girl is a student when she should be a wife.

Social climbing or "patent leather life," is a cause of race suicide. Society women care more for social position than for children and sacrifice the latter to attain the former.

The so-called "higher classes" live a "flap-doodle" life of ease and indolence, which discourages the rearing of children.

And, continued Prof. Ross, the doom of the American race is not far distant if something is not done to remedy these conditions. Dr. Ross suggested these remedies:

Restrict immigration.

Teach women it is better to be a mother of five sons than the wisest or most famous of blue stockings.

Democracy has caused race suicide because it has given every man a chance to rise in life and in the mad struggle children have been sacrificed as impediments.

NOW IS THE TIME TO GET WELL.

Nature Helps Mi-o-na Cure Stomach Trouble in Short Order.

The summer months are the best in the whole year for the treatment and cure of stomach troubles. The outdoor life, with natural exercise, the fruit and berries which are so freely eaten, all help to restore healthy action to the digestive organs.

Now when Nature will aid Mi-o-na in curing indigestion and giving strength to the stomach and whole digestive system, is the best time to use this remarkable remedy.

Taken before each meal, Mi-o-na will soothe and heal the inflamed and irritated lining of the stomach and solar-plexus, and strengthen the nerves of the digestive tract. Used at any time of the year, it cures all diseases of the stomach excepting cancer, but in the summer months it gives health

and strength twice as quickly.

If you suffer with headaches, indigestion, flatulency, specs before the eyes, fermentation, heart burn, dizziness, or have a variable appetite, and a general feeling of despondency or weakness, it shows clearly that the stomach is not digesting the food as it should. Instead of the food being assimilated and making rich, red blood and good solid flesh and muscle, it is turned in the stomach into a sour, slimy, fermenting mass that causes gases, distress after eating, and poisonous germs that fill the whole body with poor health.

Just one little tablet out of a 50 cent box of Mi-o-na for a few days, and all this will be changed for the better, and health restored. Ask Clarke & Co. to show you the Mi-o-na guarantee.
